

Problem P: Kopieren

The term "**Kopieren**" in German means "copying." In this problem, you will be given a series of lines of text. Your job is to output each line exactly as it appears in the input.

Input:

The input consists of multiple lines of text. There is no specified end marker for the input, so read until the end of the input.

Output:

For each line of input, print the line exactly as it was received.

Sample Input	Sample Output
